

# working group on hate speech on new media hate speech on new media research

Our research team focused on the analysing different using practices and texts such as news portals, social networking sites, especially the most popular social networking site in Turkey-Facebook, video sharing sites, digital games, online sports news sites, particular hate speech sites. We also discussed the relation between hate crime and hate speech, and then we evaluated hate speech in the Turkish Law and the Legal Struggle Against Hate Speech in New Media. At the end of our research, we suggested how to combat against hate speech in new media, and developed a framework to raise the citizens' awareness.

Our research will be published soon by well known national publishing house Kalkedon Yayınları under the name of "*hate spech on new media*".
